

Onboarding process with FoodDocs

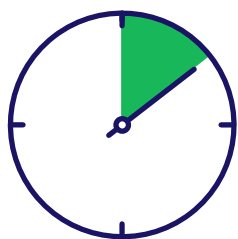

FoodDocs combines three powerful products to help companies get and stay compliant:

- ✓ Monitoring system
- ✓ Traceability system
- ✓ HACCP system builder

Trusted by thousands of customers

Make compliance easy with customizable Food Safety software

20% more time

Saved on food safety tasks

Once you switch from manual paperwork to digital forms, you'll be able to save 8 hours per week on routine tasks and monitor any food safety procedure with a real-time dashboard that you can access remotely.

10x more

Effective than paper-based systems

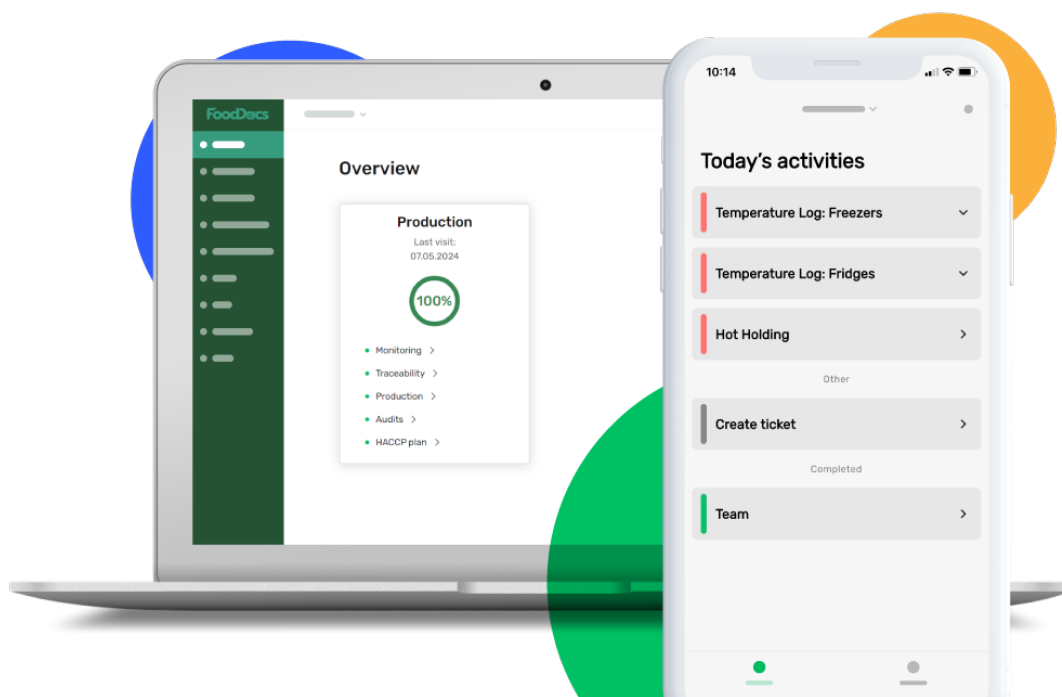

Customers have increased team effectiveness by 1000% after ditching paper forms, decreased food safety record errors, and saved the cost of a Full-Time Employee.

100% compliant

Food Safety Compliance software

Comply easily with standards and maintain healthy food safety practices. Easily customize the food safety management system to meet your food safety standards such as HACCP, GMP, ISO 22000, FSSC 22000, SQF, BRCGS, GFSI, and FSMA.

What a typical onboarding experience looks like

Onboarding agenda and timeline:

- **Day 1 – Defining scope**
Covering your food safety requirements according to your specific needs, review of existing workflows.
- **Day 4 – Monitoring setup**
Setting up the Monitoring System, including the 5 most critical tasks. Inviting the first team members to use the Mobile App.
- **Day 7 – Customizing your monitoring system**
Customizing the Monitoring systems and adding additional or more complicated tasks.
- **Day 12 – Traceability system**
Setting up the Traceability System, Product-related monitoring, mockup of recall, and reporting.
- **Day 30 – HACCP**
Setting up the HACCP (Hazard Analysis and Critical Control Points), SOPs (Standard Operational Procedures) and PRPs (Prerequisite Programs). Customization of these documents.
- **Day 45 – Final touch**
Introduction to your Customer Success Manager.

* Example timeline, in case of Professional package, a customer specific timeline will be agreed during the first onboarding call

Here's what you can expect to be included in your onboarding experience:

- ✓ A dedicated Onboarding Manager guiding you through every step
- ✓ A personalized workflow design based on your unique business processes
- ✓ Expert data migration and account configuration support
- ✓ A dedicated Customer Success Manager after onboarding is complete

“FoodDocs - Our Food Safety Management Software”

The thing I like most about FoodDocs is its straightforward design. It is easy to set up and customize the information within the system.

FoodDocs creates useful records for our Company to track food safety management and compliance. The Monitoring Checks allow for all sorts of daily tasks related to food safety, quality control, cleaning and maintenance to be recorded quickly and efficiently. It presents other benefits to the business including audits, document storage, production traceability and more.
